

DID YOU KNOW?

You can request an immunization record for yourself or your child? Immunization records from CIIS may not be complete; the records include what has been reported to and entered into CIIS.

There are several ways to request a copy of your immunization record through CDPHE: the public portal and the Request to Release Immunization Record form. You can also request a copy of your immunization record from your provider.

Patients and guardians of minors can now use the Colorado Immunization Information System (CIIS) Public Portal to view and print an official record of their immunizations.
